

Smart datacenter offering high standards for reliability, power, cooling and security controls. DC3 meets the requirements for large cloud infrastructures without compromises.

- Over 11,800 square meters
- 1.3 PUE
- 12MW redundant power supply
- 100% uptime
- High density ready
- Interconnections with all major international Telcos and IX operators
- 24x7 on-site security and technical support team

Thanks to DC3 hexacore design, our customers benefit of a highly secure, reliable and efficient environment. DC3 is the right place to reduce your operating costs and keep up the pace of cloud giants.
